

## **MyEducation BC Build 5.10 – New Features**

Release Date in Production: July 29, 2019

Release 5.10 introduces minor core functional enhancements for Student Services and Gradebook for ease of use and fixes for several problems.

### **Withdraw Wizard Setting**

School > Student > Options > Registration > Withdraw Student On step 1 of the Withdraw wizard a new option displays if the student is currently Active in Student Services: 'Keep student in special education'

This option Withdraws the student from the school and leaves them Active in Student Services.

When admitted to a new school or district, the student will be Active in the new school/district Student Services module.

### **Active – Inactive Enrollment Filter**

Student Services > Student > Filter icon

The "Active - Inactive Enrollment" filter includes all students who have a withdrawn or graduated enrollment status with an active Student Services status.

### **Lock an IEP while editing – **COMING SOON****

Student Services > Plan > Click into Plan Details

To prevent multiple users from editing the same Plan at the same time, a new Plan locking feature is now available. To edit a record:

- Click the yellow lock icon
- The icon turns green
- When the lock is about to expire, a pop-up displays.
- If you have made any changes, click Save to save your changes, refresh the lock and continue working on the record, or Cancel to exit the record without saving.

**Important:** You must click the Save button to save the record. Clicking the Green lock icon only releases the record from locking. Any changes you have made are lost if you do not save the record. Click Save or Cancel and the Plan is unlocked

### **Bulk Exit Students from Student Services Student Services**

Student > Options > Bulk Exit Students from Special Education

This procedure allows a user with the Student Services – Organization to select a group of students to exit from Student Services. (Student Services > Student > Options > Bulk Exit Students from Student Services)

**Note:** If a student is exited in error, they will need to be manually reenrolled. The Plan remains intact.

### **Combined Classes Grouping can Merge the Gradebook**

School view, Schedule > Classes > select a class > Details > Combine Gradebook field

Teachers can enter scores for the merged sections on a single Scores page when this setting is applied. The result is a combined Scores screen in Staff > Gradebook > Scores

**Note:** The courses must all have the same Transcript Definition assigned for this setting to function.

### **Go to Next Student in Term Comments**

School > Grades > Grade Input and Staff > Gradebook > Scores > Term Post Columns

When entering a report card comment, click Save and back button or the Save and forward button. These buttons save your comment and open the Edit Text Comment box for the previous or next student on the list.

### **Associate Assignments with Class Sections**

Staff view, Gradebook > Assignments > Options > Add Assignment or Add Ungraded Assignment or Staff view, Gradebook > Scores > Assignment > Options > Add Assignment or Staff view, Gradebook > Scores > Options > Add Assignment

A new 'Linked' or 'All' drop-down lets you associate the assignment with all of the sections you teach, or with some or all of your linked sections.

If course sections are not linked, you can select 'All' from the drop-down, and then select the checkbox next to each class that gets the new assignment. Note: The All functionality works with courses that have the same transcript definition, schedule term and grade level

### **Associate Categories with Class Sections**

Staff view, Gradebook > select the class > Details > Categories and Staff view, Gradebook > select the class > Details > Categories

A new 'Linked' or 'All' drop-down lets you associate the category with all of the sections you teach, or with some or all of your linked sections.

If course sections are not linked, you can select 'All' from the drop-down, and then select the checkbox next to each class that gets the new category.

**Note:** The All functionality works with courses that have the same transcript definition, schedule term and grade level

### **Add Assignments to Specific Students**

Staff view, Planner > Options > Add Assignment or Add Ungraded Assignment and Staff view, Gradebook > Assignments > Options > Add Assignment or Add Ungraded Assignment and Staff view, Gradebook > Assignments > Options > Add Assignment or Add Ungraded Assignment

Assignments can be removed from one or more students.

- Click the 'Student' sub top tab.
- Select the student(s) that will not receive the assignment
- Click Exclude

The student(s) will not see the assignment in their To Do widget or on the assignments list in the Student portal.

On the Scores page, the grading cell for the assignment is grayed out for the student. No mark can be entered.

The assignment does not affect the student's average; it does not exist for those students.

### **Attaching Reporting Standards**

Staff view, Gradebook > Assignments > Options > Add Assignment or Add Ungraded Assignment and Staff view, Gradebook > Scores > Assignment > Options > Add Assignment and Staff view, Gradebook > Scores > Options > Add Assignment

On the Standards tab, click the Multi-Add button.

The pop-up displays columns with the column header and standards name
