

Create a Group from a Class Roster (For Teachers)

It is possible to create group sets for a class, and groups within each group set, from a class roster. This function may be handy for displaying smaller groups of students on the Scores page, making it easer to enter comments and/or scores for them.

For example, you might like to create a *Reading* group set within your English Language Arts class. Within the *Reading* group set, you can create groups such as *Greens* (advanced readers), *Blues* (growing readers), and *Reds* (readers who need extra help).

Staff View > Gradebook top tab > Select the class > Groups side tab

To create a new group set, select Options > Add.

Information Technology for *Learning*

Click the pencil icon to edit the group name, or the red "X" in the upper right corner to delete the group, if necessary.

Staff View > Gradebook top tab > Select the class > Scores side tab

To view the students and enter scores, navigate to the Scores page of the course section (class). At the **Students** drop-down, select either a group set or a single group. The Scores page will only display the students in the selected group set or group. Proceed with entering comments and/or scores for the selected set of students.
